

## Errata Sheet for Minor Corrections to Coachella Valley Water District 2020 Urban Water Management Plan (UWMP)

This errata sheet logs minor content errors that were identified after final adoption of the Coachella Valley Water District 2020 UWMP. DWR has determined that these corrections are minor and do not require the UWMP to be amended.

These data errors have been corrected in the Department of Water Resources (DWR) UWMP database at <https://wuedata.water.ca.gov/secure/>

This errata sheet has been filed with the UWMP in all locations where it is made publicly available, including the California State Library. Errata may be submitted to State Library via email to [cslgps@library.ca.gov](mailto:cslgps@library.ca.gov)

Name and agency of the person filing errata sheet:

Zoe Rodriguez del Rey, Coachella Valley Water District

#	Description of Correction	Location	Rationale	Date Error Corrected
1	<p>Additional text:</p> <p>The current version of the Indio Subbasin Water Management Plan Update is available at <a href="http://www.indiosubbasinsgma.org">www.indiosubbasinsgma.org</a>.</p> <p>The current version of the Mission Creek Subbasin Alternative Plan Update is available at <a href="http://www.missioncreeksubbasinsgma.org">www.missioncreeksubbasinsgma.org</a>.</p>	Section 3.1.3, Page 3-7	No link or copy of the Coachella Valley Water Management Plan or Mission Creek and Garnet Hill Water Management Plan are included in UWMP.	March 17, 2022
2	<p>Additional text:</p> <p>The Indio, Mission Creek, and San Gorgonio subbasins were identified as "Medium" priority in the basin prioritization prepared by DWR.</p>	Section 3.1.3, Page 3-7	The Water Code requires that, for unadjudicated basins, the supplier must indicate whether or not the department has identified the basin(s) as a high or medium priority. 3	<p>Additional text:</p> <p>The water quality of local surface water is generally suitable for its beneficial uses. DWA is the only participating agency that uses surface water as an urban supply. DWA monitors water quality and has at times suspended use of some diversions because of turbidity spikes.</p> <p>DWA's 2020 Water Quality Report notes that DWA brought a new surface water filtration plant online in late 2020 to filter water from Snow Creek and Falls Creek. DWA's Chino Creek supply was operated in accordance with filtration avoidance criteria.</p>	Section 3.3, Page 3-17	Information was not provided on the quality of surface water supplies and how this may affect water management strategies.
